

Attuatore elettrico lineare MINGARDI con movimento a stelo rigido ad alta resistenza ai carichi di punta. Funzionamento con tensione di alimentazione 230V~ 50 Hz. Conforme alle Direttive 2006/95 LVD - 2004/108 EMC. Dotato di microinterruttori di fine corsa e relè per il collegamento in parallelo. Protezione termica incorporata. Colore disponibile: anodizzato argento. Completo di accessori di fissaggio.

MINGARDI linear actuator with rigid rod movement and high resistance to maximum loads. Operation 230V~ 50 Hz power supply.

It complies with 2006/95 LVD - 2004/108 EMC directives.

Fitted with limit switches and relays for connection in parallel. Incorporated thermal overload protection.

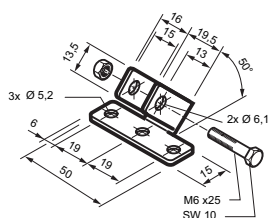

Available colours: anodised silver. Complete with fixing accessories.
